

## May Comfort Block of the Month

### Churn Dash

The comfort quilt committee would like these squares made in a combination of white and brights for May.

Cut two 4-7/8 inch squares from Bright fabric and two 4-7/8 inch squares from white fabric. Stack the squares right sides together. Draw a horizontal line from corner to corner. Stitch a scant 1/4 inch on both sides of the horizontal line.

Next cut the squares apart on the diagonal line yielding four half square triangle blocks. Press open and trim to 4-1/2 inch square.

Then, right sides together, sew one 2-1/2 inch by 18 inch strip of Bright and white together. Press the seams toward the Bright side.

Cut the resultant strip at 4-1/2 inch intervals into four 4-1/2 inch squares.

Cut one 4-1/2 inch square from the white fabric for the center of your churn dash. Sew the squares together in rows and then the rows together for your finished Churn Dash square.

Press and make several for the comfort quilt committee.
